

SUMMARY

Highly analytical Software Engineer and Full Stack Developer with strong computer science fundamentals in Data Structures, Algorithms, and OOP. Experienced in building scalable web applications, designing optimized REST APIs, and implementing machine learning and Generative AI pipelines (LangChain, ChromaDB) within Agile environments.

TECHNICAL SKILLS

Programming & Databases: Python, Java, JavaScript, C, SQL, MySQL, MongoDB, ChromaDB (Vector Store)
Web Development: HTML5, CSS3, React.js, Node.js, Express.js, FastAPI, Flask, REST APIs, PyQt5
AI & Data Science: Pandas, NumPy, Matplotlib, Scikit-learn, Generative AI, LLMs (GPT-4, Claude), RAG, Prompt Engineering
Tools & Concepts: Git, GitHub, Power BI, Tableau, Postman, Agile, SDLC, OOP, Data Structures & Algorithms

EXPERIENCE

Freelance Full Stack Developer
Roots of Araku (Organic Brand Platform)

Apr 2026 - Jun 2026
Remote

- Engineered a responsive, high-traffic e-commerce and brand platform using the **MERN Stack**, improving page load speed by 28% and increasing site performance metrics.
- Designed and optimized custom **MongoDB schemas** and REST API endpoints, streamlining checkout transaction flows and raising checkout reliability metrics.

Freelance Full Stack Developer
Pickurstay Hotels (Hospitality Platform)

Jan 2026 - Mar 2026
Remote

- Built an interactive stays discovery platform using **React.js and REST APIs**, enabling room selections in real-time and reducing API query response latency by 32%.
- Optimized frontend interface responsiveness using **CSS Grid and media queries**, boosting mobile user conversion rates.

Data Science Intern
Imaginnovate

Aug 2025 - Nov 2025
Vizag, India

- Developed natural language processing (NLP) modules using **Python, Generative AI, and Prompt Engineering** to automate data extraction.
- Optimized and validated **AI models** (LLM pipelines) for text classification, securing a 15% increase in model validation accuracy.

Data Analyst (Python Internship)
Andhra Pradesh Skill Development Corporation (APSSDC)

Apr 2025 - Jun 2025
Andhra Pradesh, India

- Analyzed structured datasets using **Python, Pandas, and NumPy** to identify statistical patterns and operational trends.
- Created interactive analytical dashboards using **Power BI and Excel**, translating data findings into visual charts to support business insights.

PROJECTS

AI Engineering OS
github.com/Saivivek-adigarla/AI-Engineering-OS

- Designed a developer framework utilizing **Python, LangChain, and CrewAI** to automate agentic workflows and prompt evaluation metrics.
- Integrated local **LLM inference (Ollama)** and RAG vector pipelines (**ChromaDB**) to support semantic code database query search.

Grammar Assistance (Python | Backend & Frontend)
github.com/Saivivek-adigarla

- Built a desktop AI grammar assistant using **Python, PyQt5, and FastAPI** with system-wide keyboard hooks to capture and refine live user input.
- Integrated the **Gemini API** asynchronously for text correction, processing NLP requests with low latency.

Smart Job Search Project
github.com/Saivivek-adigarla

- Analyzed hiring trends across 5+ developer roles using a custom **Python scraper**, extracting and cleaning in-demand skills from datasets.
- Built data pipelines using **Pandas and Matplotlib** and visual reports in **Power BI** to guide career search decisions.

Intelligent Fraud Detection and Prevention
github.com/Saivivek-adigarla

- Built a real-time transaction fraud threat detection system using **Python and Scikit-learn** models (Random Forest).
- Deployed risk scoring algorithms via **Flask APIs**, enabling real-time risk alert generation.

EDUCATION

B.Tech in CSE (Data Science)
Nadimpalli Satyanarayana Raju Institute of Technology

2022 - 2026
CGPA: 7.59 / 10

State Board of Intermediate Education
Narayana Junior College

2020 - 2022
Percentage: 70%

State Board of Secondary Education
Sri Vignan Public School

2020
Percentage: 99.4%

CERTIFICATIONS

- Amazon: Solutions Architecture Job Simulation
- MongoDB: MongoDB and the Document Model
- IIT Bombay Spoken Tutorial Project: Java Programming Certification
- Coursera: Introduction to Artificial Intelligence (AI)
- Microsoft: Introduction to Generative AI

CO-CURRICULAR ACTIVITIES

- Participated in **24-hours Hackathon 2024** conducted at NSRIT.
- Participated in "**Hack2Impact**" hackathon organized by IIC.
- Attended professional training workshop on **Blockchain** at Kakinada hosted by GVPC.
